Academic Cardiologist with focus on Critical Care Cardiology and Echocardiography

The Division of Cardiology at the University of Ottawa Heart Institute seeks application for a full-time academic cardiologist at the assistant professor level with a clinical and academic focus on Critical Care Cardiology and Echocardiography with a start date of July 2023.

Responsibilities
The University of Ottawa Heart Institute is Canada’s largest and foremost heart health centre. It employs over 1,400 physicians, nurses, researchers, technicians, allied health professionals and more. The Institute handles more than 235,000 patients yearly from across Canada.

In addition to state-of-the-art CICU, catheterization (4) and electrophysiology (4) labs, core facilities include approximately 60 inpatient ward beds, an cardiac intensive care unit (CICU) with 14 beds, a Day Unit with 36 beds, a Reference Centre with 11 beds and a New Structural Procedure Unit of 6 beds. The Division is renowned for delivery of outstanding cardiac care, excellence in education at both the undergraduate and postgraduate levels (recognized as a leading training program in Canada and internationally) and recognized internationally for its research in particular in electrophysiology, cardiac imaging, STEMI/ACS coronary intervention, valvular disease, cardiac transplantation and pulmonary hypertension programs among others as well as strength in heart failure and structural interventions.

Qualifications
Candidates must hold FRCPC certification in Cardiology and Critical Care Medicine and have Level 3 training in echocardiography. Candidates must be qualified in all aspects of advanced airway management and mechanical ventilation, bronchoscopy, thoracentesis, paracentesis, and chest tube insertion. Candidates must be trained in pericardiocentesis, pulmonary artery catheterization and monitoring, and temporary transvenous pacing. Additional experience in percutaneous tracheostomy insertion and renal replacement therapy will be considered advantageous. and. Candidates must have a strong academic interest (either teaching/research or quality improvement). Practice profile will be negotiated based on expected academic and clinical deliverables.

Fluency in both official languages (English and French) would be considered a strong asset.

Job Benefits

The income for this position is derived from a variety of sources including but not limited to clinical billings (fee-for-service), salary support (AFP/APP) as well as honorariums/stipends. Health and welfare benefits are available to full-time physicians.

The Department of Medicine is committed to upholding the values of equity, diversity, and inclusion in our living, learning, and work environments. We encourage qualified applicants from all groups with historical and/or current barriers to equity to apply. Upon request, accommodations due to a disability are available.
